

## Complete Turnkey Biodiesel Factory

- 2400 (US) Gallons per day
- Runs entirely on Biodiesel or house power
- (2) 7.5 kw diesel generators
- Spark free air powered methanol mixer and pump
- Powerful gear pump and waste pump
- (2) Basket Filters to filter feedstock and polish biodiesel (down to 1 micron)
- Durable stainless steel flooring
- Automatic valves on tanks
- Containerized plug and play design
- Powerful diesel powered burner to heat feedstock
- Transparent plumbing for visual processing
- Liquid-solid centrifuge
- Liquid-liquid centrifuge
- (4) 20'x8' cargo containers
- 4000 gallons feedstock prep/storage or biodiesel settling tanks with heat and filtration
- (2) Explosion proof hazmat storage containers (each stores up to 3000 gallons of methanol)

## PNE T-50

- 4000 gallons of storage (2) 2000 (US) gallon tanks
- Electric immersion heaters
- Basket Filters
- Automatic Valves on tanks
- Perfect for feedstock prep (filtering and dewatering)
- Use as feedstock storage or as biodiesel settling tanks
- Connects to PNE-50 processor
- Containerized in a 20'x8' cargo container

## PNE M-BOX

- Explosion Proof Hazmat storage
- 4" Insulated steel walls
- 2 hour fire rating
- 20'x8' cargo container
- Secondary containment
- Stores up to (10) 275 gal totes for a total storage of 2750 gallons
- Use to store methanol legally and safely
- (2) are included in this package
